Shuttles

The shuttles are included in the membership fee. In return, we ask you to be careful with them!

Generally, we recommend that:

- Children play with plastic shuttles.
- Intermediate and competition players warm up with the used shuttles that are in the top of the cupboard.
- Intermediate and competition players take only three new shuttles to a court to start the match.
- After the match, all the shuttles are taken back and sorted:
 - * shuttles that are broken are thrown in the box besides the cupboard
 - * shuttles that have been played with but are still in good condition, should be used to start the next match.
Or you put them in the top of the cupboard with the other warm-up shuttles.
 - * New shuttles are put back in the tube (the right way up!)
 - * when you take the first shuttle out of a tube, please throw the lid in the bin
 - * when you take the last shuttle out of a tube, throw the empty tube in the bin

Court occupation

Rules: doubles first and if there is availability, you can play singles. Always leave the court after a match, so that others also have the chance to play.

Setting up and putting away the nets

Players are expected to set up and put away the nets themselves at the beginning and end of play.

Training

Please note that our club does not offer training to adults (but to children) within the membership fee. Sometimes, a training course is offered by a qualified trainer at cost price, without any obligation. Check our website or social media regularly to find out if training sessions are offered.
